Rock Hill began in our founders' Greenwich farmhouse in 1986. We expanded the bakery and moved it to Moreau in 1993. I opened the cafe in downtown Glens Falls in 2002 and it quickly became the place to gather, talk, play music, read, make art ... and break bread ... and we plan to rebuild this community right here in our new forever home. Our bread has always been plant-based, but we became a fully-vegan company in 2018 and have set a goal of serving up delicious healthy scratch-made food regardless of people's daily diets. Feel free to contact me. I do truly appreciate your feedback and your support.
